

Taryn Nicola Wilson

TRAINEE GOLDSMITH & WATCH TECHNICIAN

Johannesburg, South Africa

+27 81 454 1451

taryn.n.wilson@gmail.com

PROFILE

Meticulous trainee goldsmith with hands-on commercial workshop experience in fine jewellery repair, fabrication, stone setting and luxury watch servicing. Trained in practical bench techniques, with a careful approach to heat management, structural repairs and high-polish finishing. Ready to contribute precision, reliability and a strong service mindset to a professional jewellery workshop.

EXPERIENCE

Trainee Goldsmith

Sep 2022 - Present

Mervis Bros Jewellers | Eastgate Shopping Centre

- Carry out bench repairs including ring resizing, prong tightening, claw rebuilding and finishing across gold, silver and stone-set jewellery.
- Use heat-sink protective compound and controlled micro-torch work to resize heat-sensitive stone-set rings without removing the centre stone.
- Fabricated a commissioned 9ct yellow gold heart pendant for the Mervis Valentine's Day Giveaway, valued at R4,900.
- Restore tarnished and worn heirloom pieces through cleaning, polishing and careful surface finishing to a high-lustre presentation.
- Complete watch battery replacements, gasket servicing and micro-link strap adjustments for Rolex, Tudor, Tag Heuer, Herbelin, Tissot, Seiko and Casio.

Jewellery Assembler / Beader

Sep 2022 - Present

Lorne Jewellery | Cape Town, South Africa

- Hand-strung and assembled fine-gemstone necklaces and bracelets using carnelian, mixed gemstone chips, silver and gold-plated components.
- Produced custom jewellery including sterling silver coin-frame pendants with gold-plated finishes.

SELECTED BENCH WORK

Sapphire & Diamond Halo Cuff

Hand-fabricated 9ct yellow gold cuff with tube-drawn bezel preparation, sapphire setting and polished finishing.

Repair & Restoration Portfolio

Completed shank rebuilds, gold sizing inserts, silver pavé repairs, claw replacement and deep cleaning of vintage jewellery.

Sterling Silver Russian Wedding Band

Constructed three interlocking rolling bands with precise geometry, seamless soldering and smooth movement.

TECHNICAL SKILLS

Fabrication

Hand-sawing, piercing, annealing, soldering, wire drawing, twisting, rolling, filing and hammered texturing.

Stone Setting

Bezel, tube, cabochon, prong and claw setting; claw rebuilding and tightening.

Repairs

Ring resizing, shank rebuilding, sizing inserts, heat protection, tarnish removal and high-polish finishing.

Workshop Equipment

Micro-torches, bench rollers, wire-drawing plates, polishing wheels, ultrasonic baths, steam cleaners and ring mandrels.

EDUCATION

Jewellery Manufacturing Level 1 - Basic Techniques

Novus Jewellery Training
Completed September 2022

Practical training in ring sizing, sawing, piercing, annealing, soldering, finishing, jump-ring construction and cabochon setting.
